I added my edits to Eva's version (attached). I believe I addressed a few of her comments and a couple of Dan's. I regret that I wasn't able to add my comments to Bo's original version before sending out yesterday; hence, all of the red-line. (Bo also needs to make sure he is OK with the changes I made).

Maybe we need to an updated "clean" version for Dan to make some of his edits and for Eleanor to look at?

Doug

A couple of comments, most of which are not actionable, added to Eva's comments.

I'm looking at this summary again this morning and will try to address as many of Eva's comments as I can.

Hi All,

Attached is the summary that Doug and I came up with. I also added an outline and made some edits to make the memo a little more readable. That is also attached. Please comment on/edit the summary to make it more understandable. We added some interpretative language that does not appear in the memo to get the point across although held back adding that these time estimates are still optimistic as they assume the degradation goes flawlessly.
